When your primary insurance settlement falls short of the outstanding amount owing on your finance contract,

Guaranteed Asset Protection Insurance can fill the "GAP"

WHAT IS GAP INSURANCE?

If you are ever unfortunate enough to be involved in an accident where the vehicle is beyond economical repair, or your vehicle is stolen and not recovered, then you could find yourself with a financial crisis.

Many vehicle owners are shocked to learn that their primary insurance does not always cover the entire amount still owing on the vehicle.

This can leave you with a deficiency between the amount of the primary insurance pay out and the outstanding balance on your loan. We call this deficiency, the "GAP".
